

The map displays a topographic representation of the Kanpa region. A prominent pink line delineates the forest boundary. A network of yellow lines represents existing roads. A blue line with red segments indicates a proposed road alignment, which follows a path through the forested area. The map is overlaid with a coordinate grid. Longitude values range from 79°37'0"E to 79°38'30"E, and latitude values range from 20°41'0"N to 20°43'0"N. The area is labeled 'Forest' and 'Kanpa'. A nearby area is labeled 'Sirsala'.

The map displays a topographic representation of the Kanpa region. A pink line delineates the forest boundary. A network of roads is shown in yellow and green. A proposed road alignment is highlighted in blue and red. The map is overlaid with a coordinate grid. Longitude values range from 79°37'0"E to 79°38'30"E, and latitude values range from 20°41'0"N to 20°43'0"N. The area is labeled "Forest" and "Kanpa". A nearby area is labeled "Sirsala".
