

This topographic map illustrates a proposed road network in a region of Karnataka, India. The map is overlaid with a grid showing coordinates from 77°10'0"E to 77°11'30"E and 19°25'30"N to 19°27'30"N. The terrain is characterized by contour lines indicating elevations ranging from approximately 420 to 510 meters. A network of roads is proposed, with a primary route highlighted in red and secondary routes in blue and green. The map also shows existing infrastructure, including a railway line (VR/B) and a river (Chondi). Key locations labeled include Jununa, Ambala, Selu, Basmath, Donwada, Kurundwadi, Wartala, and Amba. The map is titled "Chondi traf sendursana" in the top left corner.

This topographic map illustrates a proposed road network in a region of Karnataka, India. The map is overlaid with a grid showing coordinates from 77°10'0"E to 77°11'30"E and 19°25'30"N to 19°27'30"N. The terrain is characterized by contour lines indicating elevations ranging from approximately 420 to 500 meters. A network of roads is shown, including a main road (red dashed line) and several feeder roads (yellow solid lines). The roads are labeled with numbers 1 through 113, indicating a systematic numbering scheme. The map also shows existing infrastructure, including a railway line (black line) and a water body (blue area). The surrounding areas are labeled: Chondi traf sendursana to the north, Donwada to the northeast, Kurundwadi to the east, Wartala to the southeast, Amba to the southwest, Ambanath to the west, Jununa to the northwest, and Ambala to the north. The central area is labeled Selu, and a specific location is marked as Basmath. The map is a technical drawing, likely a planning or engineering document, used for infrastructure development.
