

This topographic map depicts the Padavi region, characterized by a dense network of contour lines indicating varying elevations. The map is bounded by coordinates 73°32'0"E to 73°34'0"E and 18°30'0"N to 18°32'0"N. Key geographical features include the Waki Bk (Waki Backwaters) to the west, Dahivad to the southwest, Solamkond to the south, Amshet to the southeast, Gavadi to the east, Barasgaon to the northeast, Warandh to the north, and Pathar to the northwest. The map shows a complex road network, including a prominent yellow line (likely a national highway) and several blue lines (likely state roads or canals). Numerous small, numbered plots or land parcels are visible throughout the area, suggesting a highly developed or surveyed region. The terrain appears to be a mix of flat and slightly hilly areas, with contour lines providing a clear indication of the elevation changes across the landscape.

This topographic map depicts the Padavi region, characterized by a dense network of contour lines indicating varying elevations. The map is bounded by coordinates 73°32'0"E to 73°34'0"E and 18°30'0"N to 18°32'0"N. Key geographical features include the Waki Bk (Waki Backwaters) to the west, Dahivad to the southwest, Solamkond to the south, Gavadi to the southeast, Amshet to the east, Barasgaon to the northeast, Warandh to the north, and Pathar to the northwest. The map shows a complex road network, with major roads highlighted in yellow and orange. Numerous small settlements and hamlets are marked with dots and labeled with their respective names. The terrain is predominantly hilly, with contour lines ranging from 100 to 200 meters above sea level. The map also shows the Padavi River and its tributaries, as well as the Waki Bk and Dahivad water bodies. The map is a detailed representation of the Padavi area, providing a clear view of its topography and infrastructure.
