

This is a detailed topographic map of the Phalanti region in Maharashtra, India. The map features a grid of latitude and longitude coordinates, with longitude ranging from 73°14'30"E to 73°16'0"E and latitude from 18°5'30"N to 18°7'0"N. The map shows a complex network of contour lines indicating elevation, with major peaks reaching up to 517 meters. A prominent road network is depicted, including a main road (likely NH 100) and several local roads. The map also shows various settlements and landmarks, such as Phalanti, Krishnanagar, Tamhane Shirke, and Mhasia. The surrounding regions are labeled: Navashi to the north, Madhegaon to the northeast, Vicharewadi to the south, and Sanderi to the southwest. The map is a technical drawing, likely a cadastral or survey map, used for land management and planning.

This topographic map depicts the Phalanti region, characterized by numerous contour lines indicating elevation. The map includes several labeled locations: Navashi to the north, Madhegaon to the northeast, Vicharewadi to the south, and Ambet to the southeast. To the west, the map shows the boundaries of Songhar, Khamgaon, and Sanderi. The central part of the map features a network of roads, with a prominent yellow line running through the area. A pink boundary line outlines the main region of interest. The map also shows various smaller settlements and landmarks, such as Krishnanagar and Tamhane Shirke. The terrain is hilly, with contour lines ranging from approximately 100 to 300 meters above sea level.
