

This is a detailed topographic map of the Khandala area in Pune, India. The map features a grid of latitude and longitude coordinates, with longitude ranging from 73°58'0"E to 74°0'0"E and latitude from 18°1'0"N to 18°3'0"N. The map shows the Khandala River and its tributaries, along with numerous contour lines indicating elevation. Key locations labeled include Asawali, Paragaon, Gulumb, Vele, and Wanyachiwadi. The map also shows various roads, including the main road connecting Khandala to Pune, and several smaller roads and paths. The map is a technical drawing, likely a survey map, used for planning and development purposes.

This is a detailed topographic map of the Khandala area in Maharashtra, India. The map features a grid of latitude and longitude coordinates, with longitude ranging from 73°58'0"E to 74°0'0"E and latitude from 18°1'0"N to 18°3'0"N. The map shows the Khandala region, which is a hilly area with numerous contour lines indicating elevation. The map includes several labeled locations: Asawali to the northwest, Paragaon to the northeast, Gulumb to the southwest, and Vele to the south. The Khandala area is divided into several sub-regions, including Ambarwadi, Khandala, and Wanyachiwadi. The map also shows a network of roads, including a major road (NH 16) running through the center, and a river (Khandala River) flowing through the area. The map is a technical drawing, likely a map of a map, showing the geographical features and infrastructure of the Khandala area.
